Purdue EVPRP (Executive Vice President for Research and Partnerships, formerly OVPR)

[NSF Partnerships for International Research and Education \(PIRE\) solicitation to be issued soon](#)

The next PIRE solicitation will be issued within the next 2 weeks. There will be a preliminary proposal phase followed by a full proposal phase in this upcoming competition. Awards will be made in the August-September 2015 time period. All prospective PIRE applicants can attend a webcast that will be held on July 29, between 2:30 pm and 4:30 pm (Eastern Time). The PIRE webcast can be accessed [here](#). An announcement will shortly follow the PIRE solicitation with details about the Purdue internal competition, assuming this year's solicitation limits Purdue's number of applicants as it has done in the past.

Details regarding Purdue's internal competition process and deadlines can be found [here](#).

Funding Resources:

The EVPRP (formerly OVPR) website includes a link entitled [Funding Resources](#). This link includes sections containing Internal and External Funding Resources. Additionally, there is a link for Search Tools and Alerts. Those who would like assistance in setting up their Pivot E-mail funding alerts may want to take advantage of our tutorial, which may be found on the [Search Tools and Alerts](#) link.

Kim Crist, Development Assistant, KKCrist@prf.org, 494-8659.

NSF Proposal Review Trends for Mentoring Activities

A recent article from Inside Higher Ed details more stringent NSF proposal review trends when it comes to describing how a researcher will mentor his/her students. Mentor or Risk Rejection, by Colleen Flaherty, describes instances where proposals have been rejected for not providing sufficient details on how the mentoring will take place and how successful mentoring will be assessed.
